

AIME

For Airway Success

Airway Interventions & Management in Emergencies

AIME On-the-Road

A Hands-on, Case-based, Practical Airway Learning Experience

AIME CAEP Roadshow: This program is designed for physicians working in an acute care setting requiring them to competently manage patients in need of emergency airway management.

AIME educators are experienced (and entertaining) clinical instructors who understand the varied work environments of practicing clinicians. You will not be taught industry representatives. Whether you work in a large, high volume center or a small remote setting, AIME will provide a practical approach for airway management in emergencies.

Course Highlights:

- Case-based clinical decision-making
- Optimizing your patient prior to airway management
- Hyperangulated and Macintosh video laryngoscopy
- When, why and how to perform awake or rapid sequence intubation
- Management of the difficult airway and rescue oxygenation and ventilation
- Algorithms based on Canadian Airway Focused Group Guidelines
- How to make the decision and safely execute a cricothyrotomy
- Pre-program education material including unique, customized clinical videos
- Limited registration to ensure clinician to instructor ratio of 5 or 6:1
- Clinician to simulator ratios of 2:1

AIME Training®

Program Objectives: Attendees will...

1. Be more confident and comfortable in making acute care airway management decisions.
2. Learn how to optimize patients prior to airway management.
3. Acquire a practical staged approach to airway management.
4. Be able to choose the most appropriate method of airway management based on a variety of patient presentations.
5. Make appropriate choices in the use of pharmacologic agents used to facilitate airway management.
6. Know when and how to use various tools and adjuncts for managing the difficult airway.

Program Day:

- Introduction and Oxygenation (0730 breakfast, 0800 start)
- *Workshop 1:* Peri-intubation Oxygenation good lungs bad lungs, BVM & SGA Pearls
- Review and Mac Videolaryngoscopy
- COFFEE
- *Workshop 2:* Mac Videolaryngoscopy (VL)
- Mac VL Review and Hyperangulated Video Laryngoscopy
- *Workshop 3:* Hyperangulated (HA) VL
- HA VL review and intubation approach
- LUNCH (on site)
- Approach to the Difficult Airway
- *Workshop 4:* Nasal endoscopy/Cricothyrotomy/Awake intubation/SALAD (contaminated airway)
- *Workshop 5:* Case Discussions, Drugs and stuff working Coffee
- *Workshop 6:* Putting It All Together
- Wrap-up / Evaluation (1730-1745)
